EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please change the title of the application to "Program debug method involving saving a processor's register data to memory, correcting the register data using a debugger, and reloading the corrected register data",

The following is an examiner's statement of reasons for allowance: Within claim 11, when considered as a whole, the examiner deems the novel limitation to be the combination of: the debugging program allocating memory for the SPU registers, the SPU transferring its register contents to the allocated memory and retrieving the corrected register contents from the allocated memory, and the restarting of the SPU by the debugging program.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
